341-2 TEGLER BLDG.- EDMONTON, ALBERTA

ALBERTA FACTS

Population - 632,000
Area - 255,000 square miles

ALBERTA'S RESOURCES INCLUDE

More than sixty million acres of fertile lands awaiting agricultural development.

More than fourteen per cent. of the world's coal reserves and eighty-seven per cent. of the coal reserves of Canada.

More than two-thirds of the annual petroleum production of the entire Dominion.

More than two-thirds of the natural gas produced annually in the Dominion, providing an unlimited supply of cheap fuel for domestic and industrial purposes.

More than fifteen thousand square miles underlaid by bituminous sands, stated by geologists to comprise one of the richest potential oil fields in the world.

More than sixty thousand square miles of merchantable timber, providing an abundance of building material.

More than two thousand square miles of lakes, many of which yield fish in commercial quantities.

More than one million h.p. of water power utilized and available for hydro-electric development.

More than thirty million dollars worth of mineral production annually. In addition to coal, this represents extensive deposits of salt, ceramic clays, building stone, gypsum, talc, ochre and bentonite, and in most cases development is only in its infancy.

Alberta Homesteads

The Province is divided into 5 districts with Dominion Land Agents at Lethbridge, Calgary, Edmonton, Peace River and Grande Prairie. Application for entry may be made at the Land Agency for the district.
